

CORPORATE RISK & SECURITY MANAGEMENT

Powered by 351X

351X is the industry's first **counterintelligence-enabled security management platform**, purpose-built to move organizations from reactive compliance to proactive risk defense.

Designed by FSOs and former U.S. counterintelligence professionals, **351X** integrates core compliance workflows with CI-informed risk analytics to help security leaders **manage all aspects of a security program, identify vulnerabilities, assess insider threat risk, and act before incidents occur.**

What Makes 351X Different

351X uniquely combines:

- Automated FSO and security operations
- Centralized reporting and case management
- Counterintelligence-supported insider threat risk scoring

This fusion provides real-time visibility into security tasks, compliance, **and** emerging human risk.

Core Capabilities

Personnel & Insider Reporting	<ul style="list-style-type: none">▪ Centralized self-reporting (Foreign travel, adverse info, suspicious activity, etc.)▪ Secure dossiers visible only to authorized security staff▪ End-to-end case management and tracking▪ One-click report generation for DCSA and government systems
Personnel Security & FSO Operations	<ul style="list-style-type: none">▪ Real-time access to personnel security data and activity status▪ Clearance, public trust, special access, and justification tracking▪ Investigation tracking▪ Centralized security task requests for the most common action items (VAR/VAL, PCL verifications, onboarding, offboarding, etc.)
Facility Clearance Management	<ul style="list-style-type: none">▪ Centralized repository for all FCL data and documents▪ Alerts for recurring FCL action items (self-inspections, FOCI activities, etc.)▪ FOCI compliance management
Security Training Automation	<ul style="list-style-type: none">▪ Security training administration, tracking, alerts, reminders▪ Real-time metrics on completion and audit-ready records
CI-Supported Risk & Vulnerability Scoring	<ul style="list-style-type: none">▪ OSINT integration and country risk scoring▪ CI-informed aggregation of personnel and organizational risk indicators

CORPORATE RISK & SECURITY MANAGEMENT

Powered by 351X

Key Benefits

Administrative Automation

- Save time and money with streamlined and centralized security workflows
- Eliminate spreadsheets and manual tracking
- Reduce time-consuming email traffic with streamlined data collection and automated reminders
- Simplify and automate personnel reporting and requests with user-friendly workflows
- Centralize documents, reporting, and reminders
- Simple dashboard to track what matters – Tasks, Reports, Investigations, Training, Self-inspections, etc.
- Improve planning with forward-looking dashboards (30/60/90/120 days)
- Stronger compliance through better processes

Real-Time Visibility

- Single dashboard for facility and personnel compliance
- Shared visibility without emails, meetings, or calls
- Enhance security collaboration between departments
- Exportable summaries for leadership and DCSA

Proactive Insider Threat Defense

- Patent-pending CI methodology
- Unbiased, data-driven risk scoring
- Demonstrable insider threat capability for DCSA and audits

Scalable & Secure

- Multi-facility management from one platform
- Role-based access and need-to-know data protection

Why It Matters

- ✓ **Proactive Risk Posture:** Move from reactive enforcement to predictive defense
- ✓ **Stronger Security Practices:** Compliance is the floor; not the ceiling.
- ✓ **Scalable Security Programs:** Reduce administrative burden while supporting growth
- ✓ **Audit Ready Confidence:** Display true compliance and risk assessment capabilities to DCSA
- ✓ **Data-driven Decision Making:** Intervention & resource allocation through CI-informed intelligence
- ✓ **One Secure Platform:** Blend counterintelligence tradecraft with security workflows
