**FSO PROS®** is a national provider of FSO Program Management and Industrial Security consulting services, supporting some of the nation's fastest growing government contractors. Our industrial security consultants serve as alternate facility security officers or advisors to our clients. We are seeking professionals with experience in federal contracting, who are pursuing a productive and rewarding consulting opportunity.

#### Please Note:

All positions require candidates to be able to effectively work in a remote setting without distractions and to be available to work during typical business hours. Please review the job descriptions before you apply. You will be required to provide your resume, professional references, and complete a technical assessment.

### ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Direct POC to Clients as consulting lead, providing compliance support and personnel security for their FCL.
- Effective communication with internal team members, clients, as well as the client's employees, and candidates.
- The types of services are dependent on each scope of work. Some examples are as follows:
  - Provide guidance and policy support in accordance with the NISPOM Rule 32 CFR Part 117.
  - Participate in self-inspections and audits, as directed.
  - Personnel Security
    - Administer DISS/NBIS, NISS, ACCS and other security related systems.
    - Conduct security clearance inquiries, briefings, in-processing, and out-processing of personnel.
    - Run personnel reports, reconcile PSM, and process eAPPs.
    - Process visit authorization requests.
    - Launch incident investigations, document, and submit incident reports.
    - Develop and provide security briefings and documents.
    - Administer annual refresher briefings, NATO, COMSEC, etc.
- Keep up to date on all new DoD-related training and follow protocols pertaining to new regulations within the NISP.

## **QUALIFICATION/REQUIREMENTS:**

- Minimum of 5 years' experience in federal contracting and industrial security, specifically as an FSO or SSO handling the duties and responsibilities listed above.
- Extensive background in industrial security compliance.
- Strong knowledge of and ability to interpret NISPOM Rule 32 CFR Part 117 and other relevant USG security policies.
- Effective oral and written communication skills.
- Proficient with Microsoft 365 and Adobe Professional.
- Friendly, team player with a professional demeanor and the ability to remain calm in stressful situations.
- Ability to work both independently and as part of a team, in a remote environment, support multiple customers, and take initiative to complete projects and tasks accurately and timely.
- Highly organized and detail-oriented with a strong sense of urgency.
- Bachelor's degree or military experience with 5+ years in a professional office environment.
- Completion of all relevant *CDSE* training certificates.
- Top Secret Clearance eligibility.

## **PHYSICAL DEMANDS AND WORK ENVIRONMENT:**

- This position requires long periods performing tasks on a computer as well as calls/virtual meetings.
- This job function is performed in a remote setting.
- The noise level in the work environment should be fairly quiet and free of distractions.
- Limited travel to customer sites and conferences, typically on a quarterly basis.

**FSO PROS®** is an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, or protected veteran status and will not be discriminated against on the basis of disability.
