

FSO PROS® Service Offerings

Ask an FSO

AFSO Passive Support

Managed Services with 351X

Type of Support Provided

One-on-one consulting sessions with a certified FSO. Get clear answers, system walkthroughs, and compliance guidance.

Passive support to assist with project surges or understaffed security teams. Compliance and personnel security support are available upon request, including backup user(s) with access to the organization's government systems.

Complete support to proactively handle most aspects of the organization's security program, including compliance monitoring, regular personnel security support, and alternate user(s) with access to the organization's government systems.
